Digital Finance Landscape

Digital finance is quickly changing the nature of financial service provision – with promising opportunities to reach more customers and offering a more complete suite of relevant products. However, providers face multiple obstacles leveraging this opportunity – platforms are not always accessible, customers are difficult to serve on digital-only channels, and ad-hoc partnerships pose obstacles many providers find difficult to surmount.

- **Location - Dubai, UAE**
- **Cost \$2000 (Residential Training Programme)**
- **Date 29 -31 May 2018**

Financial Analysis for Microfinance Practitioners in Asia

This one-week training course for MFIs will provide participants with an understanding of the different tools used by microfinance institutions (MFIs), what they mean, and how they can be used to keep track of an institution's financial performance over time. Participants would also learn how to format financial statements for decision-making, adjust for inflation and subsidies, measure portfolio quality, asset/liability management, efficiency, and productivity.

- **Location - Malaysia**
- **Cost - \$1500 (Tuition only)**
- **Date 18 Jun 2018 - 22 Jun 2018**

Agriculture Value Chain for Microfinance and SME Practitioners

This course on Agriculture Value chain for microfinance and SME practitioners provides an understanding of the gaps and challenges of agriculture finance. The program would enable participants to sharpen their awareness of the fundamental issues of financing agriculture and agribusiness. The program considers different business models, and the available instruments for accessing financial services.
